self taught and independent Front End Developer. 4-5 years of general coding experience. Always learning on the fly. Passion for UI design.

PORTFOLIO

https://tomas-gonzalez-froggychop100-aolcom.vercel.app/

EXPERIENCE

Self made web apps

* Deliver engaging user experience through optimization of images, code, and simple design.

*Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement
Designed dynamic and browser compatible pages using HTML, CSS, Media Query, and Javascript.

*Built single page applications (SPA) as well as a fully functionable website app that involves a sign up, login (or demo login), back end, and is easy to use.

*Ensure efficient web development by constantly debugging bugs

EDUCATION

New Jersey Institute of Technology, Newark NJ
Studied Computer Science.
